## Fertility Testing

Please note, if you are a pet owner or a breeder looking to perform fertility testing, contact your veterinary practice directly. Antech can only proceed with submissions from licensed veterinary surgeons. Results will only be provided to the submitting veterinary practice and we are unable to share them directly with pet owners or breeders.

Please complete in full

Date	Vet Practice Name and Address	
Animal Name		
Client Surname		
Species	Phone	
Breed	Age	Email

Compulsory information needed before handling your samples

Has this patient travelled outside the UK? Yes No **If yes, please specify the country or countries:**

Is there any clinical suspicion for a zoonotic infection? Yes No **If yes, please specify:**

Is there any clinical suspicion for Mycobacterium infection? Yes No

Is the patient raw fed? Yes No

### Progesterone

(0.5 ml separated serum or heparin plasma. **Do not submit serum gel**)

Assay for ovulation detection in the bitch timing of mating

**Note:** This test is not performed on Saturdays for samples submitted directly to Antech Newmarket Laboratory at Dick White Referrals. Samples submitted via this route on a Saturday will be processed the following Monday.

Please state the purpose of the progesterone test:

Timing of mating

Assessment for progesterone insufficiency in pregnancy

To predict the time of parturition (birth)

All clinical information and residual blood and tissue samples collected for diagnostic purposes may be retained for use in clinical studies where appropriate for the ultimate benefit of animal welfare. All data would be anonymised and any owner details not included.

Please tick this box if you do NOT want your clients' samples used for these purposes.
